RSX1630 SHREDDER UK

Overview

Protect your confidential and valuable information from being stolen by shredding any documents that may put your business at risk from identity fraud. The Rexel Mercury RSX1630 small office shredder is an ideal space saving desk side model and has a S3 security level which means that it shreds paper into unreadable confetti style particles (sized 4 x 45mm) making it ideal for sensitive data.

Paper jams in a shredder are time consuming, frustrating, messy and can be costly. With the RSX1630 shredder, paper jams are a thing of the past. Featuring the revolutionary Mercury i-jam free technology, the RSX1630 has a unique brightly lit indicator, next to the paper entry feeder that warns you whether you are trying to feed too much paper into the shredder in one go. A red light indicates too much paper and the green light means there is no risk of jamming.

The RSX1630 is an ultra quiet, general use shredder that can shred up to 17 sheets of 70gsm paper in a continuous single feed as well as CD's, credit cards, paperclips and staples. Specifically designed for regular shredding, it features a 30 litre large capacity waste bin that holds up to 240 sheets of 70gsm paper. The front opening waste bin enables simple and mess free emptying and the shredder cuts off automatically when the bin is full. The RSX1630 goes into power saving mode after 2 minutes of non use which reduces any unnecessary power usage making it an ideal choice for the environmentally friendly office. With a clear, easy to use LED control panel, the stylish RSX1630 is a great choice for a busy office worker who requires a shredder by their desk side.

Weighing 13.5 kg and sized at 570(H) x 420(W) x 320(D)mm, the RSX1630 comes with the extra peace of mind of a 2 year warranty, an extended warranty on the cutters plus it is compliant with finger safe international standards and is TUV and CE compliant.
